June 10, 2019

Dear Prayer Partners;

Greetings in the name of our most precious Lord and Savior Jesus Christ!

We glorify God for the work He has started here in our mission field.

We have 2 families who moved to another place so our attendance decreased but God has put new believers in our mission church. We have baptized 3 young people last May and they are now active in the Lord, they go with us in soul sinning and they attend our discipleship class every Friday night. From last March to May, we have been doing a lot of activities. We attended a Youth camp at Ilocos province, have a DVBS for the children and for the teenagers and we had a one week music class. We did a lot of soul winning and saturation together with our mother church.

Our mother church started the Bible School last year and now we will resume the class, probably, this last week of June. I am the one of the teacher and director as well. Two of our members in the mission were our students, one is full time and the other attends during night classes. We have been struggling regarding transportation since we are growing in numbers. We use three tricycle to fetch the people, we borrowed two of the tricycle in the main church but it is still not enough to get them. One tricycle can only carry 5-6 passengers including the driver. We are praying for a second hand L300 van for us to be able to fetch all of them, and also for their protection, it is very hard to get to the mission place especially this rainy season, the road is so slippery and muddy.

God has been so good to us and I know that He will always supply all our needs. I thank and always praise God for you for partnering with us. Someday you will meet those souls in heaven if not here on earth.

May the Lord God Almighty always be with, take care of you and bless you more. We love you in the Lord.

These are our prayer requests:

2) Second hand FB L300 van (Church Vehicle) \$4000

Because of the Gospel,
