Dear Friends and Prayer Partners,

Greetings in our Savior Jesus Christ's most precious name! We pray that you are doing well as we are here through our Almighty God's protection and supplication.

Thanks be to our God so for He has been using you brethren as a channel of blessings in the life of us, Missionaries and our families here in the Philippines, especially to the ministry He hath entrusted to our care.

God indeed is always good. Last October 4, there were 4 young ladies who obeyed our Lord Jesus Christ in Water Baptism. Two weeks later, 7 more souls got baptized. To God be all the Glory! These brethren are now regularly attending our Sunday Services, the young people are undergoing Discipleship Training/Lesson every Sunday, some of them are involved in Soul Winning and Tracts Distribution on Saturdays, they are also involved in the Choir Ministry. An additional three young ladies has joined the piano lessons. It was such a blessing that we get to see and have additional helping hands in God's work. Kindly help us pray for their continuous growth in faith and involvement in the work of our Lord God.

Last week of October marks the finishing of the first floor of our building project. The windows and electricity were installed. The painting of the walls have also been done. We sincerely thank you, our brethren who has been helping us in praying for its completion and also who has provided us an amount that has helped us in finishing the first floor. We thank and praise God for having you as our partners in His work. Do help us pray brethren, if God willing, we will also finish the second floor in His time.

The month of November was the start of our preparation for our upcoming Church Anniversary the next month. Though we are still in lockdown we strongly believed in God's leading. In the early week of the month, one of the six young people who has been practicing piano has took an interest in playing violin. Shirah has decided to learn playing violin and it takes a lot of patience in doing so. She occasionally plays the violin during Sunday Services for she has yet to learn more. The other three young ladies who joined them, unfortunately can't continue their lessons, out of the three, the two, which are siblings, come from the mountainous area and due to lockdown, they cannot go down. Their means of transportation is through motorcycles. And they come from different schools, their modules has been demanding so much time from them. Meanwhile, Ezra and Marvelous continued their piano lessons and have improved a lot, they still have their lessons at Mondays. They were still the ones playing during our Friday Prayer Meeting and Sunday Worship Service. Again, we ask for thy help in praying for these young people that they may continue learning not only in developing their talents but also in God's word. Do help us pray also for Sis. Emily, their music teacher as well as their Discipleship leader, for her good health.

The Sunday School Children were excited in using their new room for their Sunday School. There were straight Sundays they were ecstatic about it, but like all children, they grew up from it and went back to the attic. They wanted to stay outside to constantly take a peek at their mothers. But during rainy days they stay in their room.

December was the month of our Church Anniversary and at the same time, we are the ones hosting the Monthly Prayer Meeting. First Monday of December, my fellow Pastors from different places here in Bagulin have gathered here in our Church for our Monthly Prayer Meeting. We thank and praise God that despite the strict protocols due to Covid-19, we were still able to gather and had our Prayer Meeting which was successful. Ever since the Covid-19 outbreak, Services of Churches here in the center of our town are being monitored, protocols are being imposed, to have social distancing, to wear face masks, and children as well as the Senior Citizen are not allowed to go out from their house. But we thank God for strengthening our faith and at the same time our health. The children and Senior Citizens are still active in attending our Church Services and they were also present in our Church Anniversary.

December 19 was our Church's Anniversary. Our Almighty God has worked His wonders during that day. Despite our Church location, which is beside the road where Police pass by with the Police Station few meters away from us, our anniversary was a success, no officers had come to stop us, though we had our face masks on, alcohols prepared, but there were Senior Citizens and children who have joined us that day. And we are quite numerous for all churches here in Bagulin had come to celebrate with us for God's faithfulness and goodness towards His work here in our church. Truly our God maketh a way. We have been blessed by the Words of God and at the same time by the work He hath made for our Anniversary to be a success, all of these happened thanks to God's goodness. And we also have you our brethren to thank for in helping us pray for it.

December 25, was scheduled to be the yearly Young People's Fellowship at Alibangsay Biblical Baptist Church, a mountainous barangay. Every young people from the different churches here in Bagulin together with their visitors they have invited, would have the whole day in hearing the Word of God and encouraging each other. There were eight ladies from our church who went and have been blessed by the Word of God. Our Church also is planning to host a Young People Fellowship this coming May, do help us pray brethren that by the time it nears, our town and this world we live in be free from Covid-19, if God willing. Also help us pray that there would be more souls to be saved through this planned fellowship.

Kindly help us pray for our Church's next project. We would like to finish the second floor of our building and build a water tank. Summer is nearing and one of the problems we encounter is the shortage of water supply, though the river is near us, the water is not always clean or clear. And at the same time have additional Comfort Rooms, 2 for Men and 2 for women. If God willing we are to achieve it through His supplication and guidance, kindly include us in your prayers.

Words are not enough to describe how thankful we are for your support and prayers. May our letter bring a blessing to your spiritual life and a smile to your lips. We also are continuously praying for you there. God bless!

Your Missionaries,
Pedrito P. Pulmano and Family
