

September 2023

Greetings everyone,

I am thankful once again for this opportunity to share to you our mission work here in the Philippines. It's been a year and three months now since we arrived in our mission place here in the province of Nueva Vizcaya. Despite of all the challenges and trials, we are still able to give our best and continue our work for the glory of our God. I am thankful to God because He spared us from devastation caused by the typhoon that came to our country recently. We only just felt the strong wind without the rain and endure the whole night without electricity when the typhoon landed in our province. But this is not new to us because our country has been visiting by typhoons yearly during the rainy season.

The picture below is the mission work that we have been helping, we are conducting our Sunday worship under the tent in a garage. We do not have our own worship place yet, but we are praying that we could have our own church building. But the members does not bothered in our current worship area, the hot weather or the pouring rain does not hinder us from serving the Lord. The second picture is me with Clifford Uy, the pastor of this church. When we found out about this mission work, we decided to partner with them and help them with their ministries. Our monthly financial support is very low and we could not afford to start a new mission work that is why we just look for a baptist church in our area to work with. Our objective is still the same, by helping pastor Clifford to establish a church and to assist him in preaching the Gospel to the lost.

On the next picture, we are currently doing a sports evangelism that began on Monday until Saturday of this week. We invited youths to play basketball games started at 6pm and then preach the gospel to them in between games. They enjoyed playing and also very attentive to our preaching, some of them accepted Jesus Christ as savior during the invitation. We also invited them to our church and they are willing to attend to our Sunday worship service.

Thank you so much for your prayers and your financial support, you are a big blessing to us by being our partners in our ministry here in the Philippines. Let us continue serving our God and never cease on preaching the gospel of our Lord Jesus Christ.

Pastor Jeffrey Salvador
